BUILDING

SECURMAS 08

Mono oriented orange fencing net

The SECURMAS 08 net is a signalisation net for construction works that combines strength, lightness and economy. A net indicated for the signalisation of roads, and the closure of works areas among others. Mesh dyed without heavy metals, complying with the CONEG legislation for the limitation of the use of these toxic products for the environment.

BENEFITS:

- It has no "sail" effect
- Anti-UV resistance
- Resistant to atmospheric effects, acids and molds

Ref.	Weight	Color	Mesh	Size	Packaging (units)	Packaging (units/palet)
2017920	80 g/m ²	●	120 x 40mm	1,0 x 50m	1	130

SECURMAS 11

SITE SIGNALING NETWORK mono-oriented

SECURMAS 11 is a signalisation net used for construction works that combines strength, lightness and economy at the same time. The SECURMAS 11 is manufactured with a longitudinal stretching process which, provides a high resistance and lightness, making easier its installation in construction sites. Among other things, it is used to mark roads and close work areas. Mesh dyed without heavy metals, complying with CONEG legislation, for the limitation of the use of these toxic products for the environment.

BENEFITS:

- It has no "sail" effect
- Anti-UV resistance
- Resistant to atmospheric effects, acids and molds

Ref.	Weight	Color	Mesh	Size	Packaging (units)	Packaging (units/palet)
20086300110	g/m²		100 x 25mm	1,2 x 50m	1	40

MASNET 14

Orange fencing net

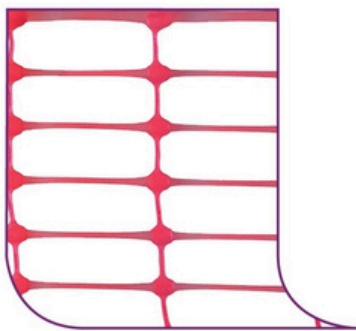

MASNET 14 net is the most popular product in the construction signalisation range; a perfect relationship between weight and appearance. Its particular structure allows an excellent visibility and resistance by combining the typical construction mesh with the appropriate weight and its professional finishing. Mesh dyed without heavy metals, complying with the CONEG legislation for the limitation of the use of these toxic products for the environment. It can be customized.

BENEFITS:

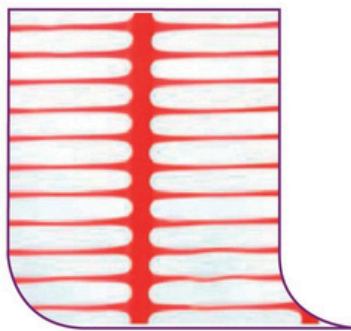

- Very easily installable thanks to its holes
- Highly visible mesh
- Anti-UV resistance
- Resistant to atmospheric effects, acids and molds

Ref.	Weight	Color	Mesh	Size	Packaging (units)	Packaging (units/palet)
2008621	140 g/m ²	Orange	80 x 40mm	1,0 x 50m	1	50
2008622	140 g/m ²	Orange	80 x 40mm	1,2 x 50m	1	50
2008624	140 g/m ²	Orange	80 x 40mm	1,5 x 50m	1	30
2008626	140 g/m ²	Orange	80 x 40mm	1,8 x 50m	1	30

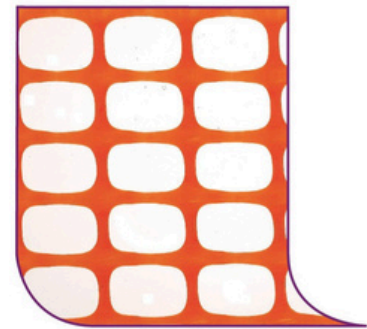

Intermas is the european manufacturer leader in signalling meshes

SECURMAS 08

SECURMAS 11

MASNET 14

 Dyed with colorants free of heavy metals, complying with "CONEG" standards, for the limitation of the use of these toxic products for the environment.

 Our signalization meshes guarantee the security of the workers and passerby.

PROTMAS

Protmas

Non-unravel, translucent, and lightweight woven mesh for the protection of all types of facades and scaffolds.

Made of HDPE with anti UV treatment.

The PROTMAS mesh has a light but optimal occultation level and it is easy to install.

Available in different colors and dimensions.

Ref.	Size	Color	Mesher/cm	Packaging (rolls)	Packaging (units/palet)
2017324	3 x 50 m	●	4,3	1	20

BENEFITS

-  Limits the shedding of materials and paint particles on the road
-  Reduces the amount of dust and other particles
-  Reduces the exposure of the facade to the sun
-  Provides more security to the work

Includes a stainless eyelet every 100 cm for a better fastening. Perimeter with heat-sealed hem to provide better resistance, protection and rigidity.

PROTEX

Tarpaulin
 Waterproof tarpaulin made of woven polyethylene raffia and coated on both sides. It is provided with a reinforcement around its perimeter and with aluminum eyelets every 100 cm to facilitate its fastening. Ideal for covering and protecting all types of machinery and materials from the rain.

- BENEFITS:**
- Great mechanical resistance
 - Long durability
 - Waterproof
 - UV resistant

Ref.	Designation	Color	Weight	Size.	Packaging (units)
2017046	PROTEX 80	●	80 g/m ²	2 x 3 m	10
2017048	PROTEX 80	●	80 g/m ²	4 x 6 m	10
2017049	PROTEX 80	●	80 g/m ²	5 x 8 m	6
2017050	PROTEX 80	●	80 g/m ²	6 x 10 m	4
2017037	PROTEX 120	●	120 g/m ²	4 x 6 m	6
2017038	PROTEX 120	●	120 g/m ²	5 x 8 m	4
2017040	PROTEX 120	●	120 g/m ²	6 x 10 m	3
2017042	PROTEX 120	●	120 g/m ²	8 x 10 m	2

BENEFITS

Multi-purpose covers:

- 100% waterproof
- Outdoor storage, covers for boats and trucks
- Protective flooring for camping tents
- Protectors for garden equipment and machinery

*measurements before making

BIG BAG

Big Bag

Flexible woven bags made of white PP raffia. The bags include strong handles at the top corners.

Ideal for the packaging, transport and bulk storage of all types of materials.

BENEFITS:

- Easily transportable by forklift trucks thanks to its handles
- Good mechanical resistance
- Bottom and top reinforced

Possibility to customize the bags for the transport of hazardous waste according to quantities.

Ref.	Color	Capacity	Size	Packaging (units)
203001	○	1000 kg	90 x 90 x 100 cm	25
2005961	○	1250 kg	110 x 110 x 170cm	1

SAC BAG

Sac Bag

Flexible woven bags made of white PP raffia. Ideal for bulk packaging of all kinds of materials. Easy to use and store, they are available in the standard dimensions of 60 x 100 and 50 x 80 cm. They are resistant to humidity and have a reinforced upper part for easy opening.

Ref.	Color	Size	Packaging (units)
2018964	○	50 x 80 cm	10 bags/unit 10 units/packaging
204002	○	60 x 100 cm	500 bags in bulk

FILMEST

Filмест

Stretch polyethylene film for wrapping pallets and set of materials.
Ideal for fixing the merchandise on the pallet, protecting it from dust and water.
It has a high tearing resistance.

Ref.	Thickness	Size	Packaging (rolls)	Packaging (units/palet)
101002	20μ	0,10 x150m(300gr)	12	864

- It enables a good shrink-wrapping
- Easy to manipulate
- Light but resistant
- Prevent merchandise from fallings
- Due its transparent colour, it enables to see the shrinked products
